CRUMP'S INDICTMENT

CREMPS INDICTMENT.

Standing on the threshold of the gallows, which would soon thrust him to teath, James Crump, at Montgomery, City, dictated a statement in which he clearly indicated that he felt that his life was being sacrificed upon the altar of race prejudice. He calls God into the account and prays that the sacrifice he was called upon to make might pay the price that others of his. Race might not be called upon to pay.

This is an aw full indictment against the courts of the state. Every man is entitled to a fair and impartial trial. Crump knew that the most spirit dominated during his trial. He had beard ahout a rope laid away in a suitcisse at the court house within the crowd there "Tealy to gy" if the jury failed in imposing the death sentence. Crump hove that if he had bear formed and persisted in taking the last sinces, no one hands. Thus Crump on the threshold of death makes the indictment that his life was sagrificed on the altar of race prejudice.

It is reported that a prominent Indiana Klansmas said last.

It is reported that a produinent Indiana Klansmaa said last year, that if Calvin Coollidge was elected President of the United States, the Klan would move its headquarters to Washington. It may be that the manumoth parade that is scheduled to take place at the Nation's Capital endry in August, is merely the bringing to pass the statement made by the Klan from the Hoosier State.

We are of the opinion that somebody has put one over on the hairdressers of the state in the _passage of the Hairdressers Bill during the last legislature.

It may be that William Jennings Bryan is paving the way to become a candidate for the Democratic nominee for President of the United States, in 1928, when he appealed to Southern prejadics in prosecution of the Evolution case in Tennessee. There is only one right way to settle human problems, and that is the right way.

There has been so much talk about man coming from the monkey recently, that there was actually a girl child born with a three inch tail last Studay at San Antonio, Texas. This advent will no doubt start another squabble among the scientists.

There is every indication of a weak spot somewhere when white aupremacy must be maintained by organized lawlesaness, operating in the dark hours of manight, under a hooded banner of the Ku Klux Klan.

To petition a Governor to saw a hire saw the court of the last resort, is customery and is as old as mankind. But there comes a time, when an appeal is made in the interest at right and justice. Such was the plea in the Crump case.
